WHAT'S IN YOUR WATER

It is recommended that we drink 8 to 10 glasses of water a day, but do we really know what's in our water?

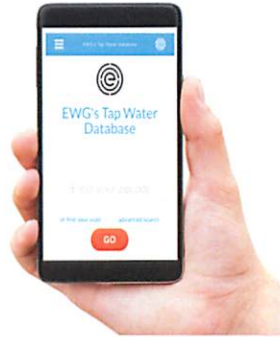

In 2016 CNN reported that 218 million Americans have water contaminated by the "Eric Brockovich chemical" referring to Chromium-6, the carcinogen at the center of the 2000 film starring Julia Roberts.

In 2017 USA TODAY reported that 94% of tap water in the United States is contaminated with plastic fibers according to research conducted by ORB International Research and the University of Minnesota.

Did You Know?

- 40,000 contaminants linked to cancer are found in U.S. drinking water?
- 7 million Americans are supplied with water containing nitrates?
- 19,000 U.S. water systems contains lead and up to 205 foreign chemicals?

Check water quality in your Zip Code: www.ewg.org/tapwater

CLEAN WATER TECHNOLOGY

Spring AquaH, the only patented 14 filtration system, surpasses all industry standards and offers our customers clean water technology. We are SGS certified. SGS is a multinational company headquartered in Geneva, Switzerland, which provides inspection, verification, testing and certification services. It has more than 90,000 employees and operates over 2,000 offices and laboratories worldwide.

MINERALS

Minerals in water can be very beneficial to our health. Besides getting the natural minerals from our water source, our technology adds minerals back into the water as micro-nutrient elements and these are essential to a healthy human body.

Examples are:

- Calcium
- Zinc
- Selenium
- Iron
- Copper
- Magnesium

ALKALINE WATER

Many scientists have published research on the benefits of drinking Alkaline water. Spring AquaH water has a PH between 9.2-9.5, making it alkaline.

Isn't it comforting to know that we are not drinking acidic water? A PH less than 7 is acidic and greater than 7 is alkaline. Do you know the PH of your water? Below are some examples.

Brand	PH
Aquafina	5.0
Arrowhead	6.8
Crystal Geysir	6.5
Dasani	5.0
Deer Park	6.3
Essentia	9.5
Evian	7.5
Fiji	7.0
Gerber Pure Water	6.5
Ice Mountain	6.0
Penta	4.0
Perrier Water	5.5
Poland Spring	5.8
Propel Fitness	3.6
Gatorade	3.5
Smartwater	6.0
Vitaminwater	3.4
Volvic	7.0
Voss Water	5.5

Water Test Results

Heavy Metals (mg/L)

Arsenic	ND<0.0004
Cadmium	ND<0.001
Chromium	ND<0.004
Iron	ND<0.031
Lead	ND<0.004
Mercury	ND<0.0002

Insecticides, Pesticides (mg/L)

Diazinon	ND<0.00108
Endosulfan	ND<0.00004
EPN	ND<0.00096
Lindane	ND<0.00002
Monocrotophos	ND<0.00084
Parathion	ND<0.00104

Chemicals (mg/L)

Combined Available	
Residual Chlorine	<0.02
Hexavalent Chromium	ND<0.01
Fluoride	<0.05
Free Residual Chlorine	<0.02
Nitrite Nitrogen	<0.01(0.002)
THMs	ND<0.00188
Total Residual Chlorine	<0/02

Bacteria

Coliform Group	<1 (CFU/100mL)
Staphylococcus Aureus (MPN/mL)	Negative

ND = Non Detectable

Absorption (Micro-Clustered Water)

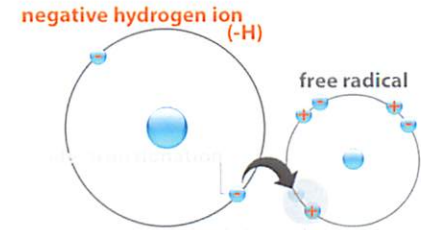

Water molecules are measured in clusters rather than a single molecule. Many people have experienced being very bloated after drinking a few glasses of tap or bottled water. Tap and bottled water have 14-20 molecules in a cluster, which is considered large and difficult to absorb, resulting in a bloated feeling. Spring AquaH water is easy to absorb. It has been tested by using Nuclear Magnetic Resonance, measuring it under 1-2 molecules in a cluster, therefore feeling bloated is not a concern.

Hydrogen (Neutralizes Free Radicals)

There are 2 filters in our 14 filter water system dedicated to creating negative hydrogen ions.

Potential Negative Hydrogen Generator. It is specially designed to generate negative hydrogen ion water and creates water with up to -750mv redox potential (ORP), providing our water with exemplary antioxidant properties.

It produces an abundance of negative hydrogen ions (-H 1400+ parts per billion), capable of donating electrons to harmful radicals in the body and preserves cellular health.

ABOVE IMAGE DESCRIPTION:

An example of a negative hydrogen ion "donating" one of its electrons to a harmful radical, that otherwise would steal it from the body. The -H ion is actually able to stop the radical from "stealing" an electron from within the body's cells, helping the body's cells maintain their health and performance.

Its all about the H.

Drinking 1 Liter of Spring AquaH (about 4 glasses a day) has the same antioxidant effects as consuming the amounts of fruits and vegetables listed below..

- 1 ltr of Water = 750+ Bananas
- 1 ltr of Water = 35+ Large Carrots
- 1 ltr of Water = 4+ Bags of Spinach

These estimates are based on 1.4 Mg/L of Hydrogen.

TASTE (Clean and Smooth)

Have you tasted pure, clean, safe, and life-promoting clean water? As part of the professional installation package, we include a 316L medical grade stainless steel faucet to ensure that the water is toxin free, heavy metal free, and chemical free. With the combination of micro-clustering, minerals, hydrogen, and alkaline water, the taste experience for many has truly been amazing.
